

LST

SECTORS:

CARACTÉRISTIQUES :

- Temperature: -60° C to +200° C.
- Working pressure: up to 25 bar.
- Volume: 4, 6, 10 l.
- Materials: Stainless steel.

DESCRIPTION :

LST for supplying barrier fluid with or without pressure in double cartridge or mechanical seal installations which enables the circulation of the barrier fluid due to the thermosyphon effect or the pumping ring (mechanical seal). API52, API53 and API53A configuration. It may be supplied with instruments for automatic level, pressure and temperature control and verification and a cooling coil to regulate the fluid barrier temperature.

Model	Capacity	d	l ₁	H	Connection
